

TriLite Technologies is a fast-growing Augmented Reality company based in Vienna, Austria & Palo Alto, California. We develop next-generation laser micro-projectors to enable the Augmented/Virtual/Mixed Reality head-mounted displays of the future.

We are looking to grow our team of R&D Engineers at our Vienna office.

DIRECTOR OF TECHNICAL OPERATIONS (full-time)
(female/male)

What you will do:

You will be the key person responsible for managing the company's day-to-day technical operations:

- You will plan, monitor and optimize the day-to-day running of the technical business to ensure smooth progress and optimum internal processes.
- You will work directly with international suppliers to build relationships, manage procurement processes coordinate material and resources allocation as well as to gather feedback.
- You will manage agreements with external electronic manufacturing partners and ensure that the company runs with conformity to established regulations.
- You will be responsible to build up our technical team to ensure that our company has the necessary people, skills and technical talents needed to reach our goals and as the company grows.
- You will solve problems through cooperation with other groups in the company.
- You will provide thought leadership and direction for product efforts with our engineering groups.

Who you are:

- You have experience in organizational management and leadership with an inspiring track record.
- You have specific knowledge and enthusiasm for highly technological hardware products.
- You have a proven track in executing and managing international supplier relationship activities with knowledge of industry's legal rules and guidelines.
- You have prior experience or a good understanding of business processes, e.g., with respect to electronic manufacturing services (EMS) and/or supply chain.
- You have a good understanding of the technical needs and internal processes in entrepreneurial companies with respect to growth trajectory and scaling.
- You have excellent verbal/communications skills and a thoughtful, persuasive personal style.
- You're comfortable developing and leading projects independently with little to no direction.
- You're capable of balancing multiple priorities and deadlines while being adaptable to the changing needs of the business.

You can expect competitive salary, dependent on qualifications and skills. Applicants must have work permission for the EU.

Please email your CV to hr@trilite-tech.com, with reference to the job title. No cover letter required.

We are looking forward to receiving your application.
