

We are a worldwide leading provider of laser beam projection displays that enable tech giants from Silicon Valley to Asia to unlock their Augmented Reality revolution.

To successfully continue our growth ambitions, we are looking for a

PRODUCT INDUSTRIALISATION ENGINEER (full-time)
(f/m/d)

Your responsibilities:

- Responsible for technical lead of new product introduction process.
- Coordinate activities with Design, Test Engineering, Application Engineering and Quality Department for characterization coverage and product verification/validation.
- Requirement tracking during the development process and change management. Perform characterization data analysis on test parameters of new products, to ensure they meet the product requirement specifications and manufacturing requirements.
- Perform data analysis, drive yield enhancement, and product cost reduction for own products.
- Review qualification results together with the project team.
- Introduction and maintenance of quality tools for production monitoring.
- Establishing build concept and production flow and documentation together with EMS partners.
- Preparation for scaling of the production line.

Your qualifications:

- Master degree in Electrical Engineering, Mechanics Engineering, Physics, Industrial Engineering or related field. Technical School (HTL) with relevant qualification.
- Hands-on mentality.
- At least 5 years of relevant work experience, thereof 2 years of practical experience in production related environment, preferably in multi-site/multi-cultural teams exercised in the electronic/semiconductor industry.
- Willingness to travel: 10%.
- Strong communication skills and the ability to deal with ambiguity.
- Very good English language skills, knowledge of German or Chinese language considered as a plus.

Your benefits:

- Be part of a young, ambitious and international team with a flat hierarchy structure, with great team spirit and creativity.
- Work in a startup-like culture, with room to develop new ideas for innovation.
- Drive intensive co-operation with international and reputable electronics companies, working on exciting projects.
- Enjoy excellent development opportunities, continuously develop skills according to individual strengths and benefit from our proven mix of on-the-job training and external educational opportunities.
- We care about our country's climate – take advantage of a Job ticket as well as the opportunity to buy a bicycle through the Job Rad program.
- Keep fit with our gym membership.
- Participate in our regular company and team events.
- We have a great company location - headquarters in the center of Vienna (1040).
- We offer a competitive salary, dependent on qualifications and skills.
- Flexible working hours and possibility for home office.

We invite you to join TriLite for a unique learning and working experience, with great potential for growth in an innovative environment.

Applicants must have work permission for Austria/EU.

Please email your CV to hr@trilite-tech.com, with reference to the job title.

No cover letter required. We are looking forward to receiving your application.
